

SALON-INSPIRED COLORS

hairdo.®

Each color is made up of 7–11 different shades, resulting in a natural look that blends with anyone's hair color! Whether made in human hair or in Tru2Life® heat-friendly synthetic hair, these pieces can be flat-ironed, curled, or blown out. However, unlike human hair, a Tru2Life® heat-friendly fiber curl will only set AFTER it cools, so curl it, hold the curl shape until the fiber cools, then release.
